

U_B SERIES

PNEUMATIC CABLE BALANCER

CAPACITY UP TO 485LB, SINGLE-REEVED

The Unified pneumatic balancer is a perfect choice when transferring loads that require more precision than a pneumatic hoist. Simple to adjust UP/DN speeds and "float" mode gives you more accuracy to finish the job.

BENEFITS & FEATURES

LOAD SAFETY

Check valve in case of loss of air supply.

ENERGY EFFICIENT

Only a fraction of CFM per cycle when compared to a pneumatic hoist.

LONGER SERVICE LIFE

Robust precision mechanical design & powder-coated housing ensures trouble free extended life.

OTHER FEATURES

Uses non-lubricated air, assures clean environment.

All non-reeved balancers come equipped with a 9 meter cable.

CONTROL STYLES

UBB = Basic Balancer with no controls
 UAB = Balancer with Up/Down controls
 UZB = Balancer with Zero-G controls
